

iGoogle

Setting up an iGoogle, adding gadgets and themes

The screenshot shows the iGoogle setup interface. At the top is a navigation bar with links: +You, Search, Images, Maps, Play, YouTube, News, Gmail, Documents, Calendar, and More. Below this is the Google logo and a search bar. The main content area is titled "Create your own homepage in under 60 seconds". It features a "Select Interests: (Choose all that apply)" section with checkboxes for Business, Financial, News, Games, Art, Entertainment, Humor, Cooking, Technology, Sports, and a checkbox for "Name this tab". A "Select a theme:" section shows several theme thumbnails, with the "Google" theme selected and circled in red. A "Choose Location:" section has a "Country/Region:" dropdown set to "United States" and a "City/Zip code:" field set to "Overland Park". A blue "See your page" button is circled in red. Red arrows point from the annotations to these elements.
